

YEAR BOOK

2023-24

Introduction

Sky-Walker Academy is a private independent provider, set within the idyllic nature of Buwit village in South Bali, just twenty minutes drive from the world-famous resort of Echo Beach, Canggu.

Created by professional parent-teachers with a vision for inclusively affordable international standard education, giving learners from working families and small business owners an opportunity to pass Cambridge qualifications, that otherwise might not be attainable; in a contemporary holistic learning environment; rooted in traditional family values and principle-centred education.

We deliver the mother of *Cambridge Examinations*; the National Curriculum of England, as published by the UK Department for Education (DfE). Universally recognised by employers, colleges and universities around the world, as the *Gold Standard* of high school qualifications.

YEARBOOK REVIEW 2023-24

MRS SRI-YOUNG
THE HEAD OF SCHOOL

The academic year of 2023-24 has been characterized by something of a bounce-back. It began with a recovering local economy - after harsh COVID-19 policies - and ended with a property development boom.

Turbo-charged by a large increase in foreign national residencies. Estimates claim between 30,000 - 300,000 foreign residents currently live in Bali (although official figures are not published). Many of Bali's current foreign residents arrived shortly after the outbreak of the war in Ukraine, which enters its second year with no clear end in sight.

Also, tourism to the Island is almost back to pre-COVID numbers, reaching 5.2 million in 2023. With a total resident population of 4.4 million.

This has all led to an expansion of the resort satellites up the coastline, fueled by property speculation. Bringing supermarkets, villa complexes, luxury hotels, food outlets, roads, clinics, schools. and even whole Russian financed 'cities'.

Costs and expenses have all surged. Directly affecting our community (both positively and negatively), as we seek to find the space to expand our facilities and control costs.

However, we feel that we are in a good position to continue providing value for money. Our academy continues to thrive (due in part to our selective admission policies), with independently verifiable academic learning performance data, showing an average increase of 1.5 grades per 12 months, for all of our students as a whole.

We have managed to maintain our classroom ratios while improving our facilities with fully refurbished bathrooms/showers to top standards. We also improved the safety of the road with signage measures along Jalan Raya Buwit.

Last year saw our commercial kitchen upgrade, the new classroom building, and the upgrade for the PlayZone (multi-sports play-surface system). We continue to invest in world-class facilities that have positively impacted our members and visiting parents eager to join waiting lists for limited classroom spots in 2024-25.

Our long-term plan continues to be the expansion of the land area, through substantial capital investment.

Therefore we remain optimistic and excited about the possibilities that lie ahead by the grace of our Balinese hosts, god, and hard work.

STUDENTS OF THE YEAR

Middle School Group

Malika Goetz

Malika is our most improved student, showing consistently good attitudes to learning. With high motivation and momentum throughout the year. She is also reliably happy to participate fully, in all social and sporting activities and has become a growing role model for her peers. Well done!!!

Junior School Group

Kayla MacPherson

Student of the Year is **Kayla**. With support, she's shown a positive attitude to learning, good concentration and determination. She manages to finish the projects, listen to feedback, and be willing to ask for help or support when needed.

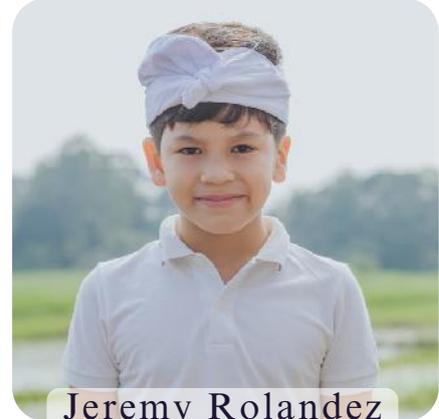

Primary School Group

Noemie Rolandez

Noemie demonstrates a strong motivation for learning, consistently maintaining momentum and achieving impressive results. She actively contributes to class discussions and serves as a positive role model for her peers, particularly in English.

Elementary School Group

Jeremy Rolandez

Introducing **Jeremy**, our standout learner! His dedication and positivity is truly impressive. His classmates see him as a role model because of his impressive achievements and positive approach to learning.

Early Years School Group

Bobby-Li

Bobbi-Li has made amazing progress in almost all fields. She shows high motivation, a positive attitude, and confidence in her abilities, as evidenced by her active participation in class discussions. She is a great role model for her classmates.

SCHOOL FACULTY / FAMILY

Class of 2023-24
