

# Skyhawk Academy

**Year Book 2025-26**

# Introduction

Skyhawk (formerly Skywalker) celebrates its **10th anniversary** this year. As a selective, private, independent academy located in the natural surroundings of Buwit Village, South Bali, just twenty minutes from Echo Beach, Canggu and five minutes from Nuanu and Munggu.

Founded by experienced parent-teachers committed to delivering affordable, international-standard education, the academy maintains an average enrolment of 3.55 years and a strong student progress rate of 1.5 grade levels per year—reflecting consistent academic impact.

Our contemporary, AI-supported learning environment combines traditional values with critical-thinking education. The academy follows the National Curriculum of England (DfE), preparing students for IGCSEs, widely recognised as a global high school standard.

This publication is intended as a record of the academic year.

# YEAR IN REVIEW 2025-26

BY MISS SRI THE HEAD OF SCHOOL

Once again, the **2025–26 academic year** has taken place against a backdrop of rapid global and local change.

In Bali, development across some surrounding areas has reached a corporate scale. While this brings investment and opportunity, it also challenges the island’s character and traditional way of life.

Competition has intensified across schools, residential projects, gyms, and businesses. The dynamics of developed economies are now clearly visible. For families and organisations, adaptation is no longer optional — it is essential. **This reflects Bali’s success as a global destination, but also requires careful navigation.**

Globally, ongoing conflicts in Ukraine and the Middle East continue to highlight the fragility of international systems. In this environment, we believe schools must remain measured, neutral, and focused on their core purpose: equipping students with strong knowledge, skills, and independent critical thinking.

Against this backdrop, Skyhawk celebrates an important milestone — **ten years of continuous operation**. Over the past decade, the school has successfully navigated regulatory changes, economic cycles, and the mass disruption of COVID-19. These experiences have strengthened our belief that stability comes from discipline, adaptability, and long-term thinking.

Despite rising costs in land, construction, staffing, and operations, we have maintained our commitment to high academic outcomes and accessibility for families. Our **independently verified data shows students continue to make an average of 1.5 grade levels of progress per year**, a standard we have consistently achieved since 2021.

Looking forward, we will continue to invest wisely, grow selectively, and prioritise quality over scale. Our goal remains to be a stable, high-performing school that prepares students to succeed academically and navigate an increasingly complex world with confidence and clarity.

We are deeply grateful to our families, staff, and community as we enter the next chapter.

# STUDENTS OF THE YEAR

Mateo Baptiste

## Middle Class Group

Mateo has shown clear personal growth, developing into a consistent, resilient, and well-balanced student who works effectively and continues to strengthen both his academic and social capabilities.

Mariia

## Junior Class Group

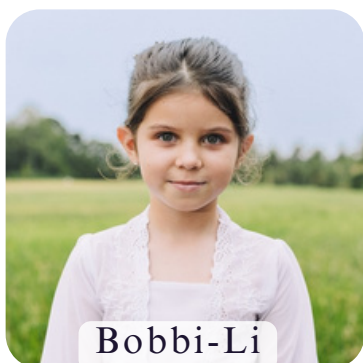

Mariia consistently demonstrates strong motivation for learning and continues to thrive, showing clear improvement both academically and personally. She approaches challenges with determination, takes initiative in her learning, and is always willing to help her peers.

Blue

## Primary Class Group

Blue consistently participates and stays focused during school activities. He maintains a positive attitude toward feedback, manages emotions well, and often achieves the highest quiz scores. He often serves as a role model and supports his peers whenever needed.

Bobbi-Li

## Elementary Class Group

Bobbi-Li is an enthusiastic, motivated student who consistently demonstrates strong academic performance and positive behavior. She is respectful, responsible, builds strong relationships, supports others, and actively contributes to class discussions.

Mikael

## Early Years Class Group

Mikael is a motivated and dedicated learner who consistently gives his best, even when facing challenges. He stays focused, listens well to feedback, asks thoughtful questions, and actively contributes to class discussions.

"Shaped here.

Still connected."

Having spent over five years at the school, Sebastian now returns to Slovakia to pursue football at a professional level. A moment that reflects both pride in his journey and the enduring relationships built along the way.

The playful ear pinch reflects a light-hearted Indonesian school tradition shared between graduating students and teachers—symbolising respect, connection, and a memorable farewell.
